

Since 1983

From: Telenomics
Subj: Resumes Sample / Summary

Date: 2009

Sample / Summary / Resumes

#441

- Over 6.5 years of experience in software development life cycle end-to-end, using SQL server 2005 in n-tier architecture, client-server, and web-based applications using Microsoft technologies
- Extensively involved in business logic and data access components to meet user requirements
- Expert in C#, ASP.Net, ADO.Net, VB, VB.Net, JavaScript, XML, XSL, XSLT, MS SQL Server, OOA/OOD
- Experienced in designing user interfaces for reports using Business Objects XIR2, Crystal Reports
- Adept in problem solving, learning new technologies; strong analytical and problem solving skills
- Reputed for dedicated teamwork, work ethics and commitment to handling new technologies/situations
- Self-motivated; independent, persuasive communicator; excellent interpersonal skills

Languages/Tools	Visual C#. NET, Visual Basic.NET, ADO.NET, ASP, SQL, T-SQL, C, C++
Web Technologies	HTML, DHTML, ASP, ASP.NET, CSS, XML, WSDL, SOAP, IIS 5.0, ODBC, OLEDB, MS Office 2000/2007
Operating Systems	Microsoft Windows 98/NT/2000/XP/Vista, Microsoft Windows Server 2000/2003
Databases	Microsoft SQL Server 2000/2005, Oracle9i/10g, MS Access, MySQL
Other Tools	Business Objects XI R2/6.5, Crystal Reports 7.5/9/10/XI, Team Foundation Server

Continued below

Job History:

- April 2003 – February 2007: Sr. Systems Analyst, Responsibilities included development, WebLogic Admin, SQL scripting with Oracle, all done in accomplishing production support (maintenance / monitoring / admin) of an n-tiered J2EE claims management application. A also contributed by solely supporting two Java/Java Script based applications which tracked account bad debts and policy audit status.

June 2000 – October 2002: Sr Systems Analyst

Education:

- Bachelor of Science Mathematics,
- Master of Science,

Certificates:

- Java2 Certified programmer
- BEA Weblogic Certified Developer
- BEA Weblogic Admin / Development Course Certificate
- Oracle PL Scripting Course Certificate

#442

Summary

More than 11 years programming, database and application development experience for sites selling truck and automotive performance and accessory parts.

Computer skills / Languages

Proficient in: SQL Server Enterprise, Coldfusion Enterprise, CSS, HTML, XHTML, JavaScript, AJAX
Familiar with: XML, .NET, C#, Visual Basic Software

Database: Microsoft SQL Server and Microsoft Access, Excel, Fox Pro, Workgroup Software and Studios: Visual Safe Source, Outlook, Dreamweaver, Microsoft Visual Studio 2008. Microsoft Visual Web Developer, SQL Server Enterprise

Graphics: Adobe CS3, Illustrator, Pagemaker, Image Ready, Adobe Photoshop
Platforms: Microsoft Windows® Server 2003, Microsoft Windows XP Pro

#443

Summary

Over thirty years of experience as lead, architect and developer of embedded and business software applications. A skilled problem solver, experienced in complete software development lifecycle and management.

Software developer, multi-tier , C, C++, J2EE, Architect, JAVA, c#, .NET OOP, Embedded, SQL, Database, XML, SOAP, UNIX, software engineering, debug, GUI, HTML, ASP, development, management, leadership, multithreading, multitasking, Simulation, DOD178-B Command/Control

Technology: UML (Rhapsody), J2EE compliant architect (for ground command and control), Real-time kernel (vxWorks BSP). Perl scripts, Verilog, UNIX, Java, C/C++, i2c, 1553, 1394, CPCI, custom drivers for ASIC chips, XML.

- TES (Troposphere Emission Spectrometer), which measures the various, gas spectrum in the troposphere. Wrote ground support software to simulate the spectrum for flight hardware.
- SIRC(Space Born Imaging Radar) , which generated the topographic map of the 80% of the earth's land mass in two 11 day missions. Wrote ground support software for test and verifying the RADAR operations. Supported two missions at JSC for payload operations.

Technology: Automated testing (VEE, Lab View), C, Unix, Motif, Shell scripts, vxWorks, C/C++, HPIB instruments, TCP/IP.

Artificial Intelligence Programming / Implementation.

Years of experience and successful references by our "Team"

Ask for and get our references...

Primarily focusing on Allen Bradley platforms (PLC-5, SLC 500, MicroLogix, CompactLogix and ControlLogix) but also competent in other brands of controllers such as Siemens, Toshiba and Automation Direct, these methodologies have been applied and delivered to an array of industries and customers.

Available for T&M, or Job Bid

#445

Objective: Aspiring for a position where in my qualification, acquired knowledge and skills are put to the best use and gives me the opportunity to advance professionally in my career.

Education:

Bachelor of Science in Computer Information Systems

Designed website for AFE department of Tarleton State University using various different tools like ASP.NET with C# and VB as a language and Photoshop
Involved in every phase of SDLC. Created Application using VB as Front end and MS Access as back end for keeping the records of their employees.

Platforms: Windows XP / 2000 / NT / Vista

Database: SQL, MS Access and Oracle

Programming Languages: Visual Basic, COBOL, Visual Basic.NET, JAVA/JavaScript, JSP, C, C++, C#.NET, ASP.NET, HTML/CSS

Software Applications: Microsoft Word, Microsoft Excel, Microsoft Visio, Microsoft PowerPoint, Microsoft Outlook, Microsoft Access

Modeling Tools: UML, ORACLE Form Builder

#446

CAREER OBJECTIVE

An advanced level Information Technology position in a results-oriented company that seeks an ambitious and career conscious person, where acquired skills and education will be utilized toward continued growth and advancement.

JOB OBJECTIVE

Data Systems Manager; Supervising Systems Administrator

SKILLS AND ABILITIES

- Advanced/expert hands-on knowledge in all MS Operating Systems (DOS-2003)
- Experienced in on-line, real-time multi-user processing techniques and concepts
- Efficient in data communication. Acute awareness of surroundings. Extremely observant of people, details, and effects
- Commendable independent judgment in organizing work processes, setting priorities and making complex decisions
- Strong leadership and mentor qualities of junior staff members and students. Manage team sizes 2-25
- Ability to communicate professionally at all levels within and outside organization
- Motivated self-starter with an aptitude for learning new skills quickly
- Ability to meet all deadlines 100% independently

TECHNICAL SKILLS

Visual Studio 6, SQL Srvr7/2K/2K3, Active Directory, IIS, NT 4.0, 2K, 2K3, XPpro, (wrkstn, srvr, patches), Exchange 5.5/2K, Outlook, Mozilla (Thunderbird, Firefox), Pop3, OWA, Outlook Express, MIDI, Adobe PhotoDeluxe, PageKeeper, PhotoImpact, JavaScript, HTML/Help wkshop, HIPPA, SOX, ASP, BJS, Office2K/2K3, GLink5.4/6.1, PC Anywhere, Timbuktu, WS_FTP, UltraEdit, Wise InstallBuilder, Windows Scripting Host, Windows Basic Script, DOS, OS/2, VMS, COBOL, BASIC, HP Insight Mgr, ScriptLogic, DB2, Win 3.xx-XP, Paradox, Word, Access, Works, Excel, MS Script Debugger, Visio, Veritas BackUP Exec, Track-It, SmartDraw, Lotus, Netscape, Norton

(Ghost, Utilities), McAfee, LapLink, Remote Desktop, VPN, NetOp, Hyena, User Commander, VMWare, Terminal Services, Adobe Acrobat, BlackIce, ZoneLabs, Watchguard, AVG, Spybot, Spyware Doctor, AdAware, Roxio Project, AS400, Websphere, PC-NFS, PC-TCP, Blackberry Enterprise Svr, Telnet, LAN/WAN, WiFi, ISDN, leased lines, CAT3/5,6, WAVETEK cable testers, punchdown blocks, wire tracing, cabling/connectivity, tone generators, multiplexers, DSL/cable modems, CSU/DSU, routers, hubs/switches, controllers, SCSI jukebox/Jukebox Mgr, SCSI1-3, SATA, UltraSCSI-2, SCSI narrow/Wide/FastWide, EISA, ISA, PCI, EIDE, RISC boxes, RAID, LCD monitors, digitizers, Anatech scanners, Solus 4 plotters, CLIX/UNIX, Novell Netware 3, Ingr Netware, IPLOT, INFORMIX, IMAGINEER, OSI Model, DHCP, WINS, DNS, SNMP, NWLink, NetBios, IPX/SPX, TCP-IP, TSO, JES2, CA7, MVS/OS390, ESA, MIM, VTAM, CICS, JCL, ISPF, SDSF, DBMS.

#447

Education

B.S. in Computer Engineering, May 2005

Test projects for functionality and design issues across several platforms using black box techniques. Ensure that projects stay in accordance with requirement and design documentation.

Design and implementation of personalized data management program for the company. Performed requirements analysis, constructed software diagrams, and assisted in design of test scripts. Coded several aspects of program.

#448

Executive Summary

A highly motivated techno-functional analyst having 4+ years of experience in IT currently seeking a role that offers the opportunity to utilize and enhance analysis, communication and engineering skills gained through experience and academic qualifications in order to attain a professional career growth. Key strengths include

- Experience in telecom industry having worked in networking, telecommunications and wireless products' software development, testing and quality assurance.
- Excellent communication and analytical skills to clearly understand the business requirements and deliver effective and well-aligned technology solutions.
- Excellent leadership qualities and project management skills including the knowledge of project management tools and methodologies.
- Ability to co-ordinate effectively with the business as well as technical people through negotiation skills.

- Friendly, flexible, mature and approachable attitude.

Skills

- Design, development, testing and support of applications and wireless protocols.
- Software quality assurance and testing including black box, white box and grey box testing.
- Software integration.
- Business analysis and requirement gathering.
- Problem isolation and analysis.
- Process improvement and documentation.

Technology

C, C++, VC++, Visual Basic 6.0, XML, Java, TTCN3, MySQL, Windows, UNIX, Linux Fedora Core 4/Core 2, RedHawk Linux, VxWorks 5.4, EAP-TLS & EAP-TTLS based security solution, TCP\IP, UDP sockets.

Tools

Microsoft Visual Studio IDE, Rational ClearCase, Rational ClearQuest, QaTraq, Visual SourceSafe (VSS), Netscape Navigator, NightStar on RedHawk Linux, Testing Technologies Workbench (TTWB), CryptoSys PKI toolkit, OpenSSL, MINT Logger, Ethereal, Wireshark, Tornado IDE 2.

#449

SUMMARY OF QUALIFICATIONS

- **4+ years as MS SQL Server Developer/DBA in development and production environments.**
- **Experience with MS SQL Server 2005/2000 installation and administration on multiple instances, edition & version upgrades, applied service packs, patches and security hot fixes.**
- **Experience in database performance tuning, query optimization, client/server connectivity, database consistency checks, monitoring, system sizing and capacity planning.**
- **Experience in MS SQL Server 2005 Analysis Services (SSAS), SQL Server Reporting Services (SSRS), Crystal Reports, Extraction, Transfer and Loading of data (ETL), and upgrading SQL Server 2000 DTS packages into SQL Server 2005 Integration Services (SSIS) packages.**
- **Experience in database backup/restore and disaster recovery strategy.**
- **Experience with T-SQL in creating triggers, stored procedures, tables, user defined functions, views, indexes, constraints and data integrity checks.**
- **Experience in implementing different types of replication - snapshot, merge and transactional.**
- **Proficiency with implementation of failover clustering for MS SQL Server and network load balancing with active/active and active/passive node setup.**

- Experience in installation, configuration, maintain and administration of Oracle Database 10g.
- Experience in installation, configuration, maintain and administration of MOSS 2007 and migration of SharePoint Portal 2003 to MOSS 2007 and creation of InfoPath 2007 based forms.
- Knowledge in complete Software Development Life cycle (SDLC) including concept to design, architecture, Development, Testing and Implementation.
- Flexible and able to handle multiple tasks simultaneously and develop exceptional relationship with co-workers, management, technical/non-technical staffs, clients and various end-users.
- Self-starter/team player with excellent communication, organizational, presentation, troubleshooting, systems analysis, project management and documentation skills.

#450

OBJECTIVE: Secure a position in the Networking and Communications technology

EDUCATION: Bachelor of Science in Network and Communications

Management CERTIFICATION: 70-282 Microsoft Certified Professional (MCP)

Skills: Active Directory, DNS, DHCP, FTP, IIS, SNMP, SMTP, MySQL, Oracle DBA, Oracle APEX, VMware GSX/Server 2.0/ESXi, PHP, VBS/BATCH/Registry Scripting, TCP/IP, SSH, Linux Fedora, NTBackup, Office 2003/2007, VDSL T1, LAN/WAN, File/Print Server, CACTI, MRTG,

#451

Specializing in designing, building, and installing Electrical Control Systems, PLC programming, and HMI programming, Omni International strives to deliver a superior solution within your budget and within your timeframe. Our project methodology results in a superior documentation package that allows our customers to take full ownership of the system. In addition we strive to train all our customers to have a complete understanding of the system capabilities available to them.

Utilizing this methodology helps:

1. Develop a thorough understanding of the process / machine control requirements (exactly *what* needs to be accomplished with the control system).
2. Develop a design solution meeting the above defined requirements (*how* the requirements will be met with hardware, software and a systems architecture).

3. Develop a sequence of operations for the control system.
4. Give the customer the ability to review the system design at a high resolution.
5. Enable the customer to ensure that all their requirements have been satisfied by the detailed system design prior to programming or implementation.
6. Produce documentation of system operation in a graphical format that can be easily *understood* by both technical and non-technical personnel. This approach aides in:
 - a. Control System modifications / additions
 - b. Maintenance
 - c. Training
 - d. Troubleshooting
- 7.

#452

Objective:

To obtain a position that will enable me to utilize my strong technical skills, educational background, and ability to work well with people

University of Southern California (U.S.C) – Viterbi School of Engineering

Work Experience:

- Worked on various networking projects involving Cisco and Xorp routers, performed Multicast using PIM-SM.
- Worked on company's website based on Cold Fusion.

- Built a Webpage with Popup window that handles cross browser issues, which fetches data from Xml file using *XML DOM*.
- Built a Tv shows listing by writing *server side Perl script* which fetches live contents from yahoo website.
- Built a Tv Listings Google Maps Mashup using *Java Servlets, Json, Ajax and Google API's* in IE and Firefox.
- Built a *Perl* script that extracts IP addresses and Domain names from thousand files into a text file.
- Built a WordPress plug-in that turn all 'b' letters to red color in all posts using *PHP*.

#453

SKILLS

Possess outstanding interpersonal, customer service, coaching, teambuilding, and written communication skills. Work excellent independently or as a contributing team player. Working knowledge of vendor relations. Provide technical information patiently to skilled and unskilled users. Break, fix, and repair of pc hardware, printers, scanners, and peripherals. Knowledge of how to build, maintain, provide end-user support for common office applications; Ethernet, TCP/IP, DSL, Tech Support, VOIP, and VPN technology;

Exceptional troubleshooting skills, Windows (95, 98, XP, 2000, NT, Server 2000, Server 2003, Server 2008, Vista), MS Word, Excel, PowerPoint, Outlook, Database Management, Internet research, research technical issues and document and repair issues, Typing 45+ wpm. I take ownership of my work and hold myself accountable by timeline standards.

SBC Communications aka **AT&T**, Business Service Sales Representative

07/2000 – 09/2008

Solution Selling Process & System Implementation of products and services to achieve monthly sales target. Resolve billing issues, handle unsatisfied customers, adjust and collect accounts. Retention is a high priority. Microsoft Word and Excel were used to create Safety Meeting information and Sales and Support Matrixes for my peers and myself. Support and motivate peers by coaching in areas of sales and compliance with current FCC and CPUC regulations

#454

Resume: Linux/Unix System Administrator

OBJECTIVE:

Accomplished and motivated Linux/Unix system administrator seeking to leverage background in systems, system programming, and networking to provide a high-quality production environment
